EVERETT LARA

Junior Full-Stack Developer

Baguio City, Philippines · +63 968 216 7905 · everett.lara1697@gmail.com
Portfolio · GitHub · LinkedIn

SUMMARY

Junior full-stack developer with two years of hands-on work in React, TypeScript and Next.js. Built and deployed Digi-Express solo: an online store with Stripe payments, user sign-in, a PostgreSQL database and an admin dashboard. Brings prior IT support and network administration experience, including troubleshooting and explaining technical issues to non-technical users. Open to junior developer roles and freelance work.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), TypeScript, JavaScript, Tailwind CSS, shadcn/ui, TanStack Query, HTML, CSS

Backend & data: Next.js server actions, REST APIs, PostgreSQL, Prisma, Better Auth, Stripe, Zod, Resend

Tools: Git & GitHub, Vercel, Vitest, ESLint, VS Code, AI-assisted development

PROJECTS

Digi-Express — Full-stack online store (solo)
Jul – Oct 2026

Next.js, TypeScript, PostgreSQL, Prisma, Better Auth, Stripe, Resend · Live demo · Code

- Built a working store where shoppers search a catalogue, check out with Stripe and track orders, plus an admin dashboard for products and orders.
- Implemented sign-in with Better Auth and kept pricing, payments and permissions on the server, never trusted to the browser.
- Modeled data in PostgreSQL with Prisma; deployed to Vercel and debugged production-only issues.

Weather App — Frontend web app (solo)
Mar 2026

React, TypeScript, TanStack Query, Zod, Leaflet, shadcn/ui, Tailwind CSS · Live demo · Code

- Built a map-based app showing current conditions, hourly and 8-day forecasts, air quality and map layers.
- Validated live API responses with Zod and cached requests with TanStack Query.
- Handled loading and error states so the app stays usable when the API is slow or fails.

Personal Portfolio
2026

Next.js, Tailwind CSS · Live site

- Designed and deployed a portfolio with project case studies; now adding Vitest tests and building a small MCP server.

EXPERIENCE

Self-directed Web Development
2024 – Present

- Relearned modern JavaScript, then React and TypeScript, and shipped three live projects on Vercel.

Network Administrator
Feb – Apr 2020

Savvy Bracket — Loakan Road, Baguio City

- Maintained the office network and diagnosed and resolved connectivity and configuration issues.
- Supported staff with computers, network devices and other IT equipment.

Technical Administrative Assistant
Aug 2019 – Jan 2020

DepEd Regional Office — Wangal, La Trinidad (Job Order)

- Gave technical and computer support to government office staff.
- Handled documentation and data entry for day-to-day office operations.

EDUCATION

Advanced Diploma in Information Technology
2016 – 2018

Informatics Institution — Baguio City

- OJT (May 2018): built an office events calendar from an open-source jQuery plugin. Code
